

Combi-Rail

and Combi-Junior rail

for stage curtains, accessories etc.

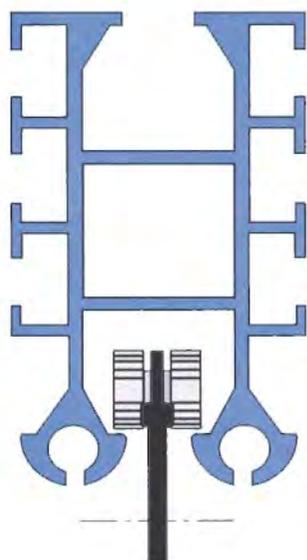

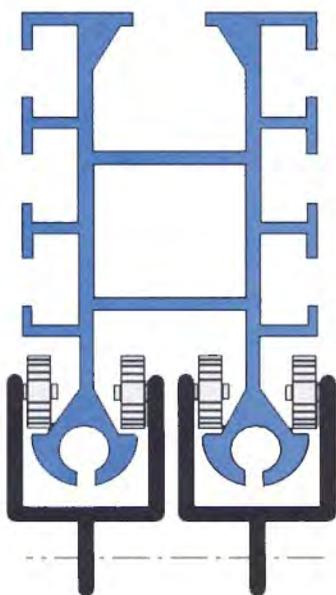

Areas of application

Theatres

Studios

Multipurpose halls

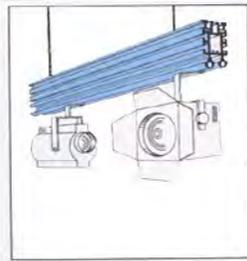

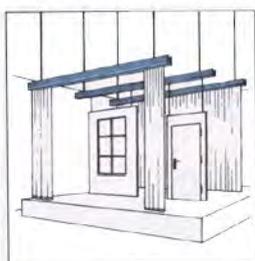

Schools

The 2-way Combi-Rail can be used universally. It is used to hold stage curtain rolls, trolleys and heavy duty castors.

Stage curtains, notices, alley scarves, backdrops, sliding walls and decorations can be attached.

The rail is supplied in natural aluminum as standard. Coatings are possible.
